NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
THREE AND SIX MONTHS ENDED DECEMBER 31, 2002
(UNAUDITED)
(U.S. DOLLARS)

(U.S. DOLLARS)

1. BASIS OF PRESENTATION

These unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information. These financial statements are condensed and do not include all disclosures required for annual financial statements. The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the Company's audited consolidated financial statements filed as part of the Company's June 30, 2002 Form 10-KSB.

In the opinion of the Company's management, these consolidated financial statements reflect all adjustments necessary to present fairly the Company's consolidated financial position at December 31, 2002 and June 30, 2002, the consolidated results of operations for the three months and six months ended December 31, 2002 and 2001 and the consolidated cash flows for the six months ended December 31, 2002 and 2001. The results of operations for the three months and six months ended December 31, 2002 are not necessarily indicative of the results to be expected for the entire fiscal year.

2. STOCKHOLDERS' EQUITY

(a) During the six month period ended December 31, 2002, the Company granted a total of 1,030,000 fully vested stock options to directors and employees of the Company , pursuant to the 2001 Plan, at an exercise price of $1.00 per share of which 200,000 stock options expire on August 31, 2003 and 830,000 stock options expire on December 31, 2005.

(b) The following table summarizes the Company's stock option activity for the period:

<TABLE>
<CAPTION>

<S>	Number of Shares <C>	Exercise Price Per Share <C>	Weighted Average Exercise Price <C>
Balance, June 30, 2002	1,305,000	$0.40 to $1.50	$ 0.76

</TABLE>

2. STOCKHOLDERS' EQUITY (Continued)

(c) The Company applies APB Opinion No. 25 and related interpretations in accounting for its stock options granted to employees, and accordingly, compensation expense of $Nil was recognized as wages expense. Had compensation expense been determined as provided in SFAS 123 using the Black-Scholes option pricing model, the pro-forma effect on the Company's net loss and per share amounts would have been as follows:

ITEM 2. PLAN OF OPERATION.

To date the Company has recorded nominal revenues from operations. The Company is still considered a development stage company for accounting purposes. From inception on February 12, 1996 through December 31, 2002, the Company has accrued an accumulated deficit of approximately $ 13.8 million.

As a result of the commercial interest in the Company's antenna technologies, the Company presently intends to focus substantially all of its resources on the commercialization and sales of antenna products. As a result, the Company will not be devoting any of its resources on the further research, development and commercialization of the other technologies in which it has an interest.

The Company's business strategy focuses on leveraging its intellectual property rights on its antenna technologies, its strengths in antenna design, material innovation, and an understanding of the wireless marketplace.

The Company is not in the manufacturing business and does not expect to make any capital purchases of a manufacturing plant or significant equipment in the next twelve months. The Company will be relying on contract manufacturers to produce the antenna products.

The Company expects to now be able to focus its marketing efforts through to the end of calendar 2003 on two primary wireless market segments. The Company's Plastenna technology will be marketed to manufacturers of such wireless devices as cellular phones, portable phones, paging communicators, satellite communications, global positioning systems (GPS) and wireless based networks. The Company's GPS/LEO antenna is for use in mobile asset tracking and fleet management, utilizing GPS satellite tracking and low earth orbit (LEO) satellite data communications to trucking fleets, heavy equipment, marine vessels, railway cars, shipping containers, transit vehicles, all via satellite interface communications.

The Company anticipates spending approximately $250,000 over the next twelve months on ongoing research and development of the different applications and uses of its antenna technologies.

During the next twelve months, the Company does not anticipate increasing its staff.

To date, the Company has relied on loans from management and management's ability to raise capital through debt and equity private placement financings to fund its operations. During the past two fiscal years, the majority of financing was completed pursuant to an equity line of credit with the Swartz Private Equity, LLC ("Swartz"). In May 2000, the Company entered into an Investment Agreement with Swartz. Pursuant to the terms of the Investment Agreement, the Company may, in its sole discretion and subject to certain restrictions, periodically sell ("Put") shares of common stock to Swartz for up to $25,000,000. Pursuant to the terms of the Investment Agreement, the Put share price will be determined and paid to the Company twenty business days after the date of the Put. The terms of the Investment Agreement are more fully described in Item 1 (Description of Business) under the subsection entitled "Investment Agreement with Swartz Private Equity, LLC." The Company received net proceeds of $102,356 from a Put of 81,885 shares to Swartz during the fiscal year ended June 30, 2001. The Company received net proceeds of $954,582 from Puts totaling 775,975 shares to Swartz during the year ended June 30, 2002.

The Company does not currently have adequate funds available to fund its operations over the next twelve months. If the Company does not earn adequate revenues to sufficiently fund operations during this time period, the Company will attempt to raise capital through the sale of its securities pursuant to the Investment Agreement with Swartz. There can be no assurance, however, that market conditions will permit the Company to raise sufficient funds pursuant to the Investment Agreement with Swartz or that additional financing will be available when needed or on terms acceptable to the Company.

Other Material Developments

In November 2002, the Company completed a private placement with eight investors and sold 1,684,000 shares of its common stock at $.50 per share and warrants to purchase 842,000 shares of its common stock within two years at an exercise price of $.75 per share. Aggregate proceeds from the sale of the common stock was $842,000. In connection with the offering, the Company agreed to use its best efforts to register the shares of common stock (including the shares underlying the warrants) for resale by the investors within 180 days after the close of the offering. The transaction did not involve any public offering, no sales commissions were paid and a restrictive legend was placed on each certificate evidencing the shares.

ITEM 3. CONTROLS AND PROCEDURES

Based on their most recent evaluation, which was completed within 90 days of the filing of this Form 10-QSB, the Company's Chief Executive Officer and Chief Financial Officer believe the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) are effective to ensure that information required to be disclosed by the Company in this report is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. There were no significant changes in the Company's internal controls or other factors that could significantly affect these controls subsequent to the date of their evaluation and there were no corrective actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.
