INTEGRAL TECHNOLOGIES, INC.
(A Development Stage Company)
Notes to Consolidated Financial Statements
Nine Months Ended March 31, 2008
(Unaudited)
(US Dollars)

1. BASIS OF PRESENTATION

These unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information. These financial statements are condensed and do not include all disclosures required for annual financial statements. The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the Company's audited consolidated financial statements filed as part of the Company's June 30, 2007 Form 10-KSB.

In the opinion of the Company's management, these consolidated financial statements reflect all adjustments necessary to present fairly the Company's consolidated financial position at March 31, 2008 and June 30, 2007 and the consolidated results of operations and the consolidated statements of cash flows for the three and nine months ended March 31, 2008 and 2007. The results of operations for the three and nine months ended March 31, 2008 are not necessarily indicative of the results to be expected for the entire fiscal year.

2. STOCKHOLDERS' EQUITY

- (a) During the nine-month period ended March 31, 2008, the Company extended the expiry date of a total of 1,055,000 options. In accordance with FIN 44, this results in a new measurement of compensation cost.
- (b) In consideration of overall market conditions in October 2007, the Company approved a temporary adjustment to the exercise terms of stock purchase warrants dated September 15, 2006. If warrants were exercised prior to November 15, 2007, the exercise price would be adjusted from \$2.50 per share to \$1.10 per share. During the period ended December 31, 2007, funds of \$208,995 were received for issuance of 190,000 common shares of the Company on exercise of warrants.

Item 2. Plan of Operation.

Statements contained herein that are not historical facts are forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, the forward-looking statements are subject to risks and uncertainties that could cause actual results to differ from those projected. We caution investors that any forward-looking statements made by us are not guarantees of future performance and that actual results may differ materially from those in the forward-looking statements. Such risks and uncertainties include, without limitation: well-established competitors who have substantially greater financial resources and longer operating histories, regulatory delays or denials, ability to compete as a start-up company in a highly competitive market, and access to sources of capital.

The following discussion and analysis should be read in conjunction with our financial statements and notes thereto included elsewhere in this Form 10-QSB. Except for the historical information contained herein, the discussion in this Form 10-QSB contains certain forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this Form 10-QSB should be read as being applicable to all related forward-looking statements wherever they appear in this Form 10-QSB. Our actual results could differ materially from those discussed here.

To date we have recorded nominal revenues. We are still considered a development stage company for accounting purposes. From inception on February 12, 1996 through March 31, 2008, we have accrued an accumulated deficit of approximately \$28.6 million.

At March 31, 2008, all of our assets were current assets of \$1,292,358, consisting of cash of \$1,263,456 and prepaid expenses of \$28,902. All of our property and equipment has been fully depreciated.

At March 31, 2008, all of our liabilities were current liabilities of \$641,187, consisting of accounts payable and accruals. Of this amount, payables for legal fees (including associated filing fees) related to patent filings accounting for approximately \$535,000 of the total.

At March 31, 2008, total stockholder's equity was \$651,171.

Our net loss for the quarter ended March 31, 2008, was \$390,357, compared to a net loss of \$735,641 for the corresponding period of the prior fiscal year. The large decrease of \$345,284 was largely attributable to the difference in recorded stock-based compensation. For the quarter ended March 31, 2008 stock based compensation recorded was zero and for the quarter ended March 31, 2007 was \$264,120.

Total expenses for the quarter ended March 31, 2008, was \$401,792, compared to a total expenses of \$772,056 for the corresponding period of the prior fiscal year. The large decrease of \$370,264 was largely attributable to the difference in recorded stock-based compensation. For the quarter ended March 31, 2008 stock based compensation recorded was \$0.00 and for the quarter ended March 31, 2007 was \$264,120.

Total income for the quarter ended March 31, 2008, was comprised of "other income" of \$11,435, compared to "other income" of \$32,415 for the corresponding period of the prior fiscal year, a decrease of \$20,980. The category of "other income" consists of interest income and nominal license fees.

Consulting expenses during the quarter ended March 31, 2008, were \$67,500. In the corresponding period of the prior fiscal year, consulting expenses were \$325,485, which included non-cash, stock based compensation charges (for the issuance of common stock and/or the granting of options) of \$122,890.

Research and development costs of \$53,317 during the quarter ended March 31, 2008, are attributable to refining the manufacturing process of our ElectriPlast™ material. In the corresponding period of the prior fiscal year, the amount expensed under this category was \$31,074.

[Index](#)

For the nine months ended March 31, 2008, our cash used in operating activities was \$1,185,895 compared to \$1,251,344 used in the corresponding period of the prior fiscal year a reduction of \$65,449.

For the nine months ended March 31, 2008, our cash provided by financing activities was \$208,995, compared to \$2,494,404 provided in the corresponding period of the prior fiscal year. The difference of \$2,285,409 was due to the difference in cash provided by the private placement of equity securities in the nine months ended March 31, 2007.

We anticipate spending up to approximately \$250,000 over the next twelve months on ongoing research and development (primarily salaries and consulting fees) of the different applications and uses of our technologies.

During the next twelve months, we do not anticipate increasing our staff.

As of March 31, 2008, we had \$1,263,456 in cash on hand. Accordingly, management believes that there is adequate cash on hand to fund operations over the next 8 months.

We are not in the manufacturing business and do not expect to make any capital purchases of a manufacturing plant or significant equipment in the next twelve months.

Presently, we are focusing the majority of our resources on the researching, developing and commercializing of our ElectriPlast™ technologies. Our business strategy focuses on leveraging our intellectual property rights and our strengths in product design and material innovation. We are focusing our marketing efforts on securing licensing agreements for applications of our ElectriPlast™ technologies with manufacturers of products which would benefit from the incorporation of any of the ElectriPlast™ applications.

ElectriPlast™ is an innovative, electrically-conductive resin-based material. The ElectriPlast™ polymer is a compounded formulation of resin-based materials, which are conductively loaded, or doped, with a proprietary-controlled, balanced concentration of micron conductive materials, then pelletized. The conductive loading or doping within this pellet is then homogenized using conventional molding techniques and conventional molding equipment. The end result is a product that can be molded into any of the infinite shapes and sizes associated with plastics and rubbers, and is non-corrosive, but which is as electrically conductive as if it were metal.

Various examples of applications for ElectriPlast™ are shielding, lighting circuitry, switch actuators, resistors, medical devices, thermal management and cable connector bodies, to name just a few. We have been working to introduce these new applications and the ElectriPlast™ technology to the marketplace.

Our intellectual property portfolio consists of over eleven years of accumulated research and design knowledge and trade secrets. We have sought U.S. patent protection for many of our ideas related to our ElectriPlast™ technologies. Currently, we have filed 117 U.S. patent applications, 35 of which have been issued, 4 of which have been allowed and are pending issuance, and 80 of which have been filed and are pending approval. No assurances can be given that all patent applications will be approved; however, to the extent that patents are not granted, We will continue to attempt to commercialize these technologies without the protection of patents. As patents are issued, we will have the exclusive right to use in the U.S. the design(s) described in each issued patent for the 18-year life of the patent.

Summary descriptions of our manufacturing agreement with Jasper Rubber Products, Inc. and our various patent license agreements are included in our annual report on Form 10-KSB for the year ended June 30, 2007.

We have also filed trademark applications with the U.S. Trademark Office for “ElectriPlast™” and related names such as “ElectriPonix™” and “ElectriOnix™”.

[Index](#)

We are not in the manufacturing business. Our manufacturing agreement with Jasper Rubber Products, Inc. provides for Jasper to manufacture ElectriPlast™ for us.

After seventeen months of refining the manufacturing and molding process of ElectriPlast™, the Jasper facility is now capable of producing over 50,000 pounds of ElectriPlast™ pellets per month. We have entered into patent license agreements with several companies, as summarized below, and we are in the process of producing prototypes of requested applications of ElectriPlast™ for these companies as well as other prospective customers.

In addition to its manufacturing capabilities, Jasper has a distribution network throughout the US and Canada, allowing for ElectriPlast™ to be introduced to prospective customers and delivered to customers.

We anticipate that our technologies will not be sold directly to the general public, but rather to businesses and manufacturers who will incorporate our technologies as components in the design of their products.

During the nine-month period ended March 31, 2008, the Company extended the expiration date of a total of 1,055,000 options.

In consideration of overall market conditions in October 2007, the Company approved a temporary adjustment to the exercise terms of stock purchase warrants dated September 15, 2006. If warrants were exercised prior to November 15, 2007, the exercise price would be adjusted from \$2.50 per share to \$1.10 per share. During the period ended December 31, 2007, funds of \$208,995 were received for subscriptions of 190,000 common shares of the Company on exercise of warrants.

Item 3. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in assessing the costs and benefits of such controls and procedures.

With the participation of management, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures at the conclusion of the period ended March 31, 2008. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in ensuring that material information required to be disclosed is included in the reports that we file with the Securities and Exchange Commission.

There were no significant changes in our disclosure controls or in other factors that could significantly affect those controls subsequent to the date of this evaluation, including any corrective actions with regard to significant deficiencies and weaknesses.

Internal Control over Financial Reporting

Management has not yet completed, and is not yet required to have completed, its assessment of the effectiveness of internal control over financial reporting as required by Section 404 of the Sarbanes-Oxley Act of 2002, as amended.

CERTIFICATION PURSUANT TO
18 U.S.C. ss.1350, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, William S. Robinson, Chief Executive Officer of Integral Technologies, Inc., certify that:

1. I have reviewed this quarterly report on Form 10-QSB for the period ended March 31, 2008 of Integral Technologies, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
